ROSHAN SINGH

91+ 7827545464 | GITHUB | LINKDIN | PORTFOLIO | roshansingh200477@gmail.com

SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries	React.js, TailwindCSS, Bootstrap, Node.js, Express.js
Databases	MongoDB, Mongoose, MySQL
Tools & Platforms	Git, GitHub, Vercel, Render, VS Code, Postman
Core Concepts	REST APIs, JWT Authentication, Responsive Design, Microservices, UI/UX Principles
Currently Learning	TypeScript, PostgreSQL

PROJECTS

Verifeye — AI-Powered Fake News Detection System | React.js, TailwindCSS, Node.js, Express, MongoDB, JWT *2026*

- Live Link 👈
- Built and deployed a full-stack fake news detection platform using a microservices architecture across three independently deployed services (Vercel + Render).
- Engineered a React + TailwindCSS frontend featuring JWT-based authentication, dark-themed UI with shimmer animations, and fully responsive design.
- Developed a FastAPI ML service integrating a TF-IDF vectorisation model for real-time article credibility scoring via REST API.
- Resolved production-level issues including auth redirect bugs, cross-service environment variable configuration, and free-tier spin-down prevention using UptimeRobot.

NoteNest — Digital Note-Taking Solution | React.js, Bootstrap, Node.js, Express, MongoDB **2025**

- Developed a full-stack note-taking web application enabling users to create, read, update, and delete notes with a clean, responsive interface.
- Implemented RESTful API endpoints with Express.js and persisted user data in MongoDB using Mongoose schemas.
- Built a responsive React frontend with Bootstrap, featuring organised note management and real-time UI updates.

EDUCATION

Indira Gandhi National Open University (IGNOU) *2023 – 2026*

Bachelor of Computer Applications (BCA) · Delhi, India · Final Year

ACHIEVEMENTS & CERTIFICATIONS

WordPress Development Curriculum: Completed practical training in theme customisation, plugin integration, and CMSbased web development.

Frontend Development: Delivered two production-deployed projects — Verifeye and NoteNest — demonstrating end-to-end full-stack capability with React.js, Node.js, and MongoDB.

Community Presence: 500+ LinkedIn connections with active engagement in the frontend development and open-source community.
